Your #1 Partner For Remote Database Administration

Cornerstone Data Systems, Inc.

Your data is your business's most valuable asset. So give your databases the care and attention they deserve while still minimizing cost, and reducing the workload of your IT staff. The numerous benefits of remote database administration are all within reach.

So don't get left behind. Get in touch with Cornerstone today. Our consultants can answer any questions you may have about our process, and we'd be happy to discuss a customized remote DBA solution for your company based on your particular needs, IT infrastructure, and budget.

WHY COMPANIES CHOOSE US?

- We provide a personalized experience
- Thought & strategic leadership is included for all our clients
- Flexible arrangements working on-site or remote
- Boutique services, so that you don't pay for services you don't need
- One-on-one support & training for your staff
- We provide you with expert-level resources with real world experience

Remote DBA Service

Cornerstone's Remote Database Administration services put your company's database environment in the hands of our reliable, efficient, highly trained and certified database experts.

We will work with you to create a service plan that suits your business needs. We handle all the training, monitoring and troubleshooting, with consultants available to assist personally if difficulties occur. In addition, we can provide UNIX/Linux system administration, giving you one point of contact for both services.

DBAFLEX Offerings:

- DBAFLEX Level 3 Enterprise Package
  (24 x 7 x 365 Support)
- DBAFLEX Level 2 Corporate Package
  (9 x 7 x 365 Support)
- DBAFLEX Level 1 Executive Package
  (9 x 5 Support)

Cornerstone – Remote DBA Services:

If you're in need of a remote DBA partner, look no further than Cornerstone. Our specialist consultants have a deep knowledge of Oracle and SQL databases, and we can provide you with a cost-effective database administration solution that's perfect for the needs of your business.

The Benefits Of Remote DBA Services:

- **Cost Reduction** – Because our expert DBAs standardize and optimize the routine administration tasks of your databases, we can provide incredible database support at a fraction of the cost of a dedicated, full-time DBA.
- **Increased Reliability** – Our DBA team is constantly monitoring each and every database that we administer. We don't just react to problems that occur in your database – we proactively respond to any issues your database may have.
- **Better Database Performance** – Our team will constantly patch, upgrade, and maintain your Oracle database system. We work to decrease the downtime of your systems and ensure that they're always operating at peak performance levels.
- **Frees Up Your IT Staff** – If you outsource your DBA services to Cornerstone, you can reduce the workload of your IT staff, and allow them to focus on other mission-critical projects without worrying about the integrity of your databases.
- **24x7 Support** – Our team of specialist database administrators is available 24x7, 365 days a year. If you are ever in need of support, have concerns about your databases, or suffer from an emergency, we'll be here to help – guaranteed.

Your #1 Partner For Remote Database Administration

Why Choose Cornerstone For Remote Database Administration?

Cornerstone is an ideal partner for your remote DBA needs. Our team of database experts specializes in maintaining and patching Oracle database systems, and our boutique business model focuses on customers first – not profits.

Here are 3 reasons you should choose Cornerstone for your remote DBA needs:

- **Hands-On Solutions** – We're not just consultants. We offer you a true partnership. Whether you're setting up remote DBA services, upgrading your IT infrastructure, or taking on any other large project, our consultants will meet with your team to help you develop and implement a cutting-edge solution that's perfect for your needs.
- **Reliable, Responsive, Trustworthy** – Communication is the most important part of any client relationship. That's why Cornerstone focuses on reliability, responsiveness, and trustworthiness in every aspect of our business. When you partner with us, our team is always available to you.
- **Client-Focused Business Model** – Our unique boutique consulting model allows us to prioritize long-term relationships with all of our clients. We focus on finding the perfect solution for your needs, rather than just maximizing our bottom line.

By focusing on your needs above everything else, Cornerstone can provide absolutely unparalleled service to you and your business. We pledge to always take care of our clients first, and to ensure that you have everything you need from us to make the most of your IT consulting investment.
