

## Modernize legacy workloads with no Application changes!

### Cornerstone Data Systems, Inc.

Your data is your business's most valuable asset. So give your databases the care and attention they deserve while still minimizing cost, and reducing the workload of your IT staff. The numerous benefits of remote database administration are all within reach.

So don't get left behind. Get in touch with Cornerstone today. Our consultants can answer any questions you may have about our process, and we'd be happy to discuss a customized remote DBA solution for your company based on your particular needs, IT infrastructure, and budget.

### WHY COMPANIES CHOOSE US?

- We provide a personalized experience
- Thought & strategic leadership is included for all our clients
- Flexible arrangements working on-site or remote
- Boutique services, so that you don't pay for services you don't need
- One-on-one support & training for your staff
- We provide you with expert-level resources with real world experience

### Are you faced with:

- High risk associated with applications installed on Legacy systems?
- Excessive costs in maintaining legacy systems?
- Difficulty in getting parts / maintenance / service for Legacy systems?
- Legacy system security issues?
- High application investments you can't walk away from?

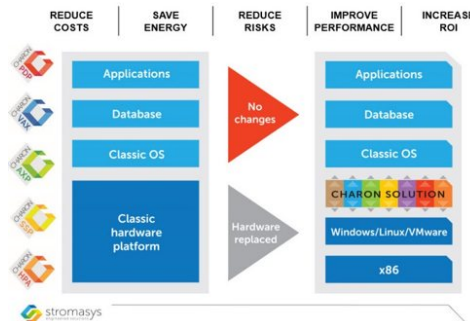

Now you can eliminate dependency on high risk/cost legacy systems by moving to X86 platforms or the cloud with no changes to the applications or database through Bios level virtualization.

Cornerstone Data Systems in partnership with Stromasys can provide a rapid and cost effective path to eliminate your legacy systems

- Assist with acquisition and installation of new hardware platform or cloud as needed
- Migration of applications and data to new platform (no recoding, rewrites or compiling)
- Rapid installation of Charon emulation software (appx 5 days)
- Parallel operation during validation phase
- On-going database support or managed services as needed

### Legacy virtualization portfolio includes:

- CHARON-PDP — PDP-11 Hardware Virtualization
- CHARON-VAX — VAX Hardware Virtualization
- CHARON-ALP — Alpha Hardware Virtualization
- CHARON-HPA — HP 3000 (HP 9000 Q4 2019) Hardware Virtualization
- CHARON-SSP — Sun SPARC Hardware Virtualization

Don't wait for the Legacy time bomb to explode! Reduce your exposure and costs now while maintaining your application investment.
